Stonehaven Town Partnership – Stonehaven Harbour Development Feasibility Study

The Stonehaven Harbour Development Feasibility Steering Group (“Steering Group”) has now appointed consultants to perform the Stonehaven Harbour Development Feasibility Study. They are PJ Consulting and Associates.

Following an initial meeting with the “Steering Group” when the Feasibility Study timeline and delivery date was agreed, the consultants have completed their initial site visits and have commenced consultations with key individuals within Aberdeenshire Council.

We would now like to invite you to submit, in writing, any matters; views; suggestions; comments or issues that you feel the Consultants should be considering or including within the study. There will be an opportunity for any relevant issues to be discussed with the consultants in the coming weeks. Please forward your written submissions to projects@stpweb.org by 19th February 2015

Upon completion of the study STP, with the support of Aberdeenshire Council, will engage in a full public consultation process to determine what support there is for any potential solutions identified in the Stonehaven Harbour Development Feasibility Study.

We look forward to receiving your submission.

Yours sincerely,

Wynne Edwards
